The NCC has been at the heart of the motorhome industry, representing and protecting the interests of members for over 75 years.

NCC membership is more than just a trade body subscription - the benefits and support we provide give your business a valuable commercial and marketing edge.

In 2015 motorhome registrations increased by 21%. Sales of all types of motorhomes were buoyant, with the campervan market being particularly vibrant and specialist converters reporting strong demand.

In the same year the NCC achieved formal recognition from DVLA as the lead body for motorhome registrations. This realised significant benefits for the industry, and the NCC can now issue dedicated DVLA model codes to manufacturers. This will improve registration accuracy, thus benefiting both the industry and motorhome buyers.

% increase of new motorhome vehicle registrations for 2015.
